

Jay Cris Bahandi

Experienced fullstack developer passionate about building robust and inclusive web applications.

Relevant Experience

Fullstack Developer • **The Codebox Inc** Sept 2023 - Nov 2025

- Built and maintained fullstack web applications using Laravel, HTML, CSS, JavaScript, jQuery, and MySQL. Later transitioned into React-focused development, leveraging the MERN stack (MongoDB, Express, React, Node) to deliver modern, responsive, and scalable web solutions.

Fullstack Developer • **Vertex** July 2024 - Jan 2025

- Contributed to the development of an E-Procurement web application using modern technologies including Next.js, NestJS, React with TypeScript, and PostgreSQL, ensuring efficient and scalable system architecture.

Frontend Developer • **The Block Labs** Feb 2022 - Jan 2024

- Developed Web2 and Web3 applications utilizing technologies such as Next.js, React, TypeScript, Material Tailwind UI, and Wagmi, delivering responsive interfaces and seamless blockchain integration.

Application Developer • **Virginia Food Inc** April 2019 - Aug 2023

- Developed internal web applications to streamline business processes and improve operational efficiency.
- Utilized technologies such as Laravel, HTML, CSS, JavaScript, jQuery, and MySQL to build and maintain robust backend and user-friendly frontend solutions.

Design Associate/QA • **Ripeconcepts** Aug 2018 - Feb 2019

- Reviewed, corrected, and prepared client card designs using Adobe Photoshop, Illustrator, and Lightroom, ensuring they met print-ready standards.
- Ensured high-quality design output by conducting thorough quality checks aligned with client expectations and brand guidelines.

Web Developer • **Wisebox IT Solutions** Apr 2018 - July 2018

- Built and customized websites for local clients using CMS platforms, primarily WordPress, ensuring responsive design and client-specific functionality.

Education
